DETAILED ACTION

Claim Rejections - 35 USC § 103

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-9, 16 are rejected under 35 U.S.C. 102(b) as being anticipated by Tran, US Patent No. 6373342 for reasons of record.

Claim 10 is rejected under 35 U.S.C. 103(a) as being unpatentable over Tran in view of Vikinski for reasons of record.

Response to Arguments

Applicant's arguments filed 1/21/05 have been fully considered but they are not persuasive.

Regarding applicant comments directed to the rejection of claims 1-9, 16 under 35 U.S.C. 102(b) as being anticipated by Tran, Applicant argues "Tran does not teach or even suggest circuitry that provides the function explicitly recited in claim 1. In particular, the circuitry taught in Tran does not substantially shield delay stages from noise in a power supply connected to switch-control load circuitry". These arguments are not persuasive because Figures 4 and 9 clearly show all the structure limitations, and the functional limitation is inherently present in the structure. Applicant's argument has no persuasive reasoning why the functional limitation is inherently not present in the structure. Regarding claims 3 and 7, Applicant argues "Tran does not teach switch-controlled load circuitry that selectively applies a load to the corresponding delay stage

output". This argument is not persuasive because Fig. 4 shows all the structure limitation as recited in the claim when the capacitor 22 is considered as a load as stated in the previous Office Action.

Allowable Subject Matter

Claims 18-21 are allowed.

Claims 11-15 and 17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
